EDUCATION

University of Leeds
Leeds, UK | 09/2025 - 08/2026
Master of Science | Transport
Planning and the Environment

UTEC | University of Engineering
and Technology
Lima, Perú | 04/2023 - 09/2023
Specialization | Data Science
Essentials Program

PUCP | Pontifical Catholic
University of Peru
Lima, Perú | 05/2021 - 02/2022
Specialization | Infrastructure and
mobility management

PUCP | Pontifical Catholic
University of Peru
Lima, Perú | 03/2014 - 12/2019
Bachelor's Degree | Civil Engineer

COURSES

PUCP | Design of storm drainage
systems
03/2024 - 04/2024

PONS Mobility | Road infrastructure
for traffic calming
03/2023

IDB | Results-based management for
subnational governments
07/2022

CERTIFICATIONS

ACTIVE | Mobility for Everyone
03/2024 - Workshop

PTV Group | PTV Vistro 2022
07/2022

Autodesk | Revit Architecture User
03/2017

PROFESSIONAL RESUME

Civil engineer and MSc candidate in Transport Planning and the Environment. Specialized in large-scale spatial analysis and R-based programming to understand urban mobility trends. Experienced in designing and optimizing transport systems through collaboration with international organizations (World Bank, IDB, C40). Skilled in air quality evaluation and sustainable spatial planning, as well as traditional transport planning, traffic microsimulation, and data-driven infrastructure planning.

SOFTWARE

Engineering and Design - Revit | AutoCAD Civil 3D
Data and GIS - R | PYTHON | QGIS
Transport Modelling - PTV VISSIM | PTV VISUM | Synchro

WORK EXPERIENCE

Pontifical Catholic University of Peru | Teaching Assistant Professor
Lima, Peru - 03/2023 - 07/2025

- Assisted in courses on Transport Engineering (2023, 2024-1 and 2025-1) and Road Safety (2023-1 and 2025-1), guiding students in technical analysis and project work

Urban Transport Authority of Lima and Callao | Transport Engineer
Lima, Peru - 07/2024 - 05/2025

- Assessed and designed urban transport infrastructure to improve accessibility of bus stops and multimodal connectivity
- Designed spatial analyses in GIS for the improvement of key corridors of the BRT system

Metropolitan Municipality of Lima | Traffic Engineer Assistant
Lima, Peru - 03/2023 - 06/2024

- Led technical road safety and mobility assessments for infrastructure projects in the Historic Center
- Designed pedestrianisation schemes for the Historic Center using AutoCAD and Revit, focusing on accessible urban design and traffic calming measures
- Supported IDB initiatives for electric transport routes
- Built microsimulation models to optimize traffic lights in a World Bank-funded project, improving flow efficiency
- Coordinated traffic data collection and validation for investment projects

Ferloza SAC | Technical Office Engineer
Lima, Peru - 07/2021 - 10/2021 | 08/2022 - 10/2022

- Prepared soil mechanics studies and technical proposals for public and private geotechnical projects

Girod Perú | Technical Office Engineer
Lima, Peru - 10/2021 - 07/2022

- Delivered technical documentation of road safety solutions for urban and rural road projects
- Collaborated with clients to integrate safety measures and requirements into project designs

LANGUAGES

English | IELTS Academic | TRF Number: 24PE500702SULG101A

German | Basic | Goethe Institute
